You should have a paypal account or an alertpay account to withdraw your money earnings. If you don't have an account, sign for paypal or here for alertpay.

You may have heard of the popular PTC site, NeoBux, which pays you to click ads. I believe that NeoBux is still one of the best paid to click programs out there. They do one thing consistently and that is they pay instantly. They seem to have a clear business model and show a level of sustainability that you normally do not see. Some people complain that it is not easy to make a lot of money with NeoBux and they are right. But with the right strategy it is not hard to make a good amount of money consistently without the worry of the company disappearing tomorrow. You need to pick a strategy and stay with it for the long haul with NeoBux. With a few minutes a day you can really generate a nice income stream with NeoBux. Below, I have my strategy for those that are just starting out with NeoBux.

This Strategy Guide will teach you how to make REAL money with them, without paying them a thing.

The only catch is you won't be making \$50/day right off the bat!

You will be making a few cents when you first start. The name of the game is called **PATIENCE**. Now, with this method, I won't be investing any money to earn money. If

you have money to invest, by all means, do it and you'll see results faster than mine.

The key to making money on NeoBux is through referrals. It's simple, if you don't have referrals, you won't make money. You can rent referrals directly from NeoBux.

The referrals are real people (NOT BOTS) and cost 22 cents a month each. Some will be active and some won't.

To "recycle" a non-active referral for an active one you have to pay 7 cents.

It may seem like a lot, but it's worth it. If you don't recycle inactive referrals, you will lose money.

Okay enough chat let's begin!

Sign Up To NeoBux first:

ZERO-INVESTMENT STRATEGY

Step 1:

Start Clicking Your Ads Every day, When you reach 66 cents by clicking on your own ads (if you don't invest money) you are able purchase 3 referrals (**DO NOT BUY REFFS YET!**), it takes a few days to earn the 75 cents on your own and people are so eager to buy referrals that they just purchase as soon as their account reaches 75 cents.

When people do this they do not realize that they do not have enough money to maintain their rented referrals and their referrals eventually are taken away because they can't pay for them.

Step 2:

Ok so before you rent referrals you should earn \$3 by clicking on your ads (Or You Can Invest For Quickness) and then transfer it to your rental balance. This way you have \$1 per referral and you will easily be able to recycle them if they are not active or pay to keep them for one more month. It will take a while to get \$3 on your own, but this way you will be able to keep your referrals and exchange the inactive ones for active ones

without the fear that you will not be able to pay for them.

Step 3:

Once you have your \$2 in your rental balance purchase 3 referrals, **Autopay** is another must. As soon as you rent your first 3 referrals turn Autopay on (you will find this on the page where your referrals are listed). Referrals cost 22 cents a month to keep. Instead of you paying for the referral, they pay for themselves as long as you have Autopay turned on. What it does it subtract one of the advertisements your referral views each day and puts it towards the 22 cents that referral needs to stick around for another month. So you get one less penny from each referral, but they will be your referral as long as they are active.

Step 4:

Cashing out too early is a huge problem for people that use NeoBux.

When you request a payment it is INSTANTLY transferred into your Alertpay/Paypal account.

In order to see if NeoBux is indeed legit (which it is) many people will earn a dollar by clicking and then cash it out. Woo-hoo. You now have a WHOLE DOLLAR in your Paypal account.

That dollar should have been put towards buying referrals. With this strategy you will be putting \$2 into your rental balance before you buy 3 referrals. So just under 70 cent per referral. I actually did not cash out until I started reaching +1000 refs.

Keep renting referrals by increments of 3 (you can rent by higher increments later as your referrals make you more money) and continue until you have 500 referrals. This will take quite some time. This is where most people flake out. When you reach 500 referrals, stop buying referrals and just maintain the ones you already have. Keep doing this until the money builds up to about \$100 and you can use \$90 of it to pay for golden. \$100 won't take very long at all to get once you have 500 referrals and once you upgrade to golden your earnings will DOUBLE. This is the great part. Golden costs \$90 a year but instead of getting half a cent for every advertisement your referral views, you get 1 cent. Your earnings double. That's all there is to it.

Keep renting new referrals after you upgrade to golden and don't cash out. Remember, you haven't cashed out at all, and you shouldn't until you have 2000 referrals. But when you do cash out, you will be able to cash out about \$50 a day.

Step 5:

Utilize all free methods of advertising to gain any direct referrals. Talk it up with your friends and relatives. Put a tagline on your e-mail signature. Post in forums. Use free traffic exchanges. And that's the end of this one.

INVESTMENT STRATEGY

The cheapest investment strategy is to skip step 1 in zero investment strategy and deposit \$3 to your NeoBux account.

If you are looking for a faster way to reach the required number of referrals than you can invest few dollars to start.

Step 1:

Start by registering here: <http://www.neobux.com/?r=zaradanainter>

Step 2:

Click on all of your ads every day and every once in a while there will be extra ads for you to click.

Step 3:

Rent 100 referrals. This will cost you \$25. This is a solid investments.

Step 4:

Meet the minimum standards so you can upgrade to Golder membership. You should either rent at least twice or get 50 credited clicks or be a member for 15 days at least.

Step 5:

Before going Golden you should rent another 100 referrals. This will cost you additional \$25 and you will own 200 referrals.

Step 6:

Buy golden account for 90\$.

Step 7:

Continue with renting 100-pack referrals and clicking on ads.

Step 8:

Make sure that you maintain an average of 1 in order to make profit.

Step 9:

Once you reach 100 credited clicks pay \$890 to upgrade to Ultimate. This will enable you to buy packs of 300 referrals. You should do so until you reach the number of 4000 referrals.

Step 10:

Be sure that you are maintaining your referrals and keep Auto Pay on – if you do not have Auto Pay on extend your referrals for 90 days (you will get 20% discount).

Step 11:

Start cashing out. You should get your investment back in around 3 months. After that everything is pure profit for you.

An Ultimate account with over 4000 referrals can make over \$500/month profit!

TIPS on how to profit wisely

1. Try to maintain an average of 1 (for golden) or 2 (standard). Anything over means you are making profit that day.
2. PATIENCE IS THE KEY.
3. Recycle referrals that haven't clicked in 4 days.
4. NEVER recycle a Golden referral! They will have a constant of 9+ clicks per day and a high average.
5. Don't forget to click EVERY DAY! If you don't then you won't be credited for your referral clicks the next day. A lot of people skip days of clicking on ads, especially in the beginning. Maybe they forgot to, or maybe they're just not motivated. Whatever the reason, skipping days will slow your progress, and your game plan to wealth is delayed. The solution to this is having proper motivation.
6. If your referral goes below 20 days left renew them for 30 more days so they can be paid through Auto Pay thus giving you 10% discount.
7. When you have a good amount of referrals – 1250 for Golden and 4000+ for Ultimate you can slowly cash out.
8. Explore NeoBux forums and read on what other people have to say.

Traffic exchanges

A guaranteed, sure way to get free direct referrals is to use Traffic Exchanges. How they work?

In short, you must register on them first. Then you have to surf (open and view for a specific time period) a number of websites. You get credited for each view with 1 credit. And you will get a click on your referral link (or website if you choose) for each credit.

This way you will raise your clicking average because not everyone will join, only the people who want to join.

Best ones are:

EasyHits4U, with over 430 thousands members is one of the most-known traffic exchange sites of today. This means that here are many potential referrals! Register here:

<http://www.easyhits4u.com/?ref=zaradanainter>

TrafficG offers you the same ratio as EasyHits4U, as well as 10% five-level referral program. If EasyHits4U is No1, TrafficG comes very close in the 1st place race!
